FOREWORD

This report presents summary data on total Department of Defense military prime contract awards by type of contractor, and data on awards of over \$10,000 by Service Category and Federal Supply Classification, for Fiscal Years 1974, 1975, 1976, and 1977.

Data by Service Category and Federal Supply Classification are presented in three sections:

1. Section A covers awards for research, development, test and evaluation work (RDT&E). The RDT&E categories used are the standard Department of Defense Claimant Programs. These procurement program definitions are identical with those prescribed for use in the Defense Materials System. Each category of RDT&E work has been divided into four kinds of RDT&E work, as described in the Armed Services Procurement Regulation 4-101.
2. Section B covers Other Services and Construction. The 15 major divisions and approximately 160 individual classes were developed specifically for prime contract reporting and are considered to be self-explanatory.
3. Section C covers the Federal Supply Classification structure composed of 74 groups and approximately 585 individual classes. This system was developed primarily for supply management of items known to be in the supply system of the Federal Government. Definitions of the Classes appear in the Cataloging Handbook, Federal Supply Classification, Part 1, Groups and Classes, H2-1, which may be purchased from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

While there is comparability between the Federal Supply Classes used in this publication and the Standard Industrial Product Codes used by the Census Bureau of the Department of Commerce, the exact points of agreement and disagreement have not been ascertained. Moreover, it should be observed that in many of the Census reports, the SIC data are based on the principal product of an establishment, rather than on the individual products produced by that establishment. In addition to differences in code content, data from this pamphlet and certain Bureau of the Census reports do not coincide as to period covered or as to point in time when reported. The former are fiscal year figures measuring contract awards before delivery has taken place, while the latter are calendar year figures measuring shipments or production which may take place several years after the contract award.

The following characteristics of the material presented in this pamphlet should be noted:

Data cover only prime contracts (those placed directly by the Department of Defense) and do not reflect the large amounts of subcontracts for basic and intermediate materials and components. Thus, for example, most of the steel plate for ships is purchased by Defense prime contractors, and only a small portion is obtained by direct DoD purchase (see Code 9515). Similarly, a large dollar amount of electronics is purchased by Defense contractors who have received prime contracts for missiles and other weapons systems.

Product and service information on procurement actions of \$10,000 or less are not collected and therefore not provided in this report. In each of the fiscal years 1974 through 1977, these small transactions totaled from \$4 to more than \$5 billion. This limitation tends to understate procurement of commercial type items and services more than military hard good items which usually are bought in large dollar amounts. It is known, for example, that Subsistence (FS Group 89) is severely understated for this reason. However, information concerning the composition of the small purchases is not sufficient to identify all the categories of commodities and services which are affected to an important degree.

For security reasons, various contracts have been reported with a classification other than the one describing the item purchased. Therefore, data for a number of the Federal Supply Classes shown are incomplete.

The data which categorize contract awards by Service Category and Federal Supply Classification include awards to all types of contractors. In this respect, the coverage differs from other reports published by this office which provide such information only with respect to awards to business firms for work in the United States.

NOTE: Beginning with fiscal year 1977, the fiscal year period changed from July-June to October-September; therefore, fiscal year 1976 covered the period July 1975-June 1976, and fiscal year 1977 covered October 1976-September 1977. Data by Service Category and Federal Supply Class were not compiled for the transition period (July-September 1976).

SUMMARY

Military prime contract awards in fiscal year 1977 totalled \$55,572 million. This is \$8,638 million, or 18 percent, more than in fiscal year 1976.

As may be noted from the following table, awards to business firms increased the most, from \$37,594 in fiscal year 1976 to \$45,595 million in fiscal year 1977, an increase of \$8,001 million, or 21 percent. Awards to educational and nonprofit institutions increased by \$72 million, or 8 percent; intragovernmental awards by \$13 million, or 0.2 percent; and awards for work outside the United States by \$565 million, or 25 percent. However, the percentage distribution by type of contractor changed only slightly. Awards to business firms increased 2 percentage points to 82 percent and intragovernmental awards decreased 2 percentage points to 11 percent.

<u>Type of Contractor</u>	<u>FY 1974</u>	<u>FY 1975</u>	<u>FY 1976</u>	<u>FY 1977</u>
	<u>Millions of Dollars</u>			
<u>Total</u>	\$ 40,131	\$ 45,758	\$ 46,934	\$ 55,572

* Civilian Health and Medical Program of the Uniformed Services

** Less than 0.5 percent.

NOTE: Figures may not add to total due to rounding.

In the individual RDT&E claimant program areas, the major increases were in Electronics and Communication Equipment - \$298 million or 20 percent; Aircraft - \$271 million or 20 percent; Services - \$184 million or 18 percent; and Tank-Automotive (primarily tanks) - \$136 million or 153 percent. Decreases were recorded for Ammunition - \$10 million or 9 percent; and Missile and Space Systems - \$3 million or less than 1 percent.

With respect to the Other Services and Construction category (see Section B, page 3) those with increases of more than \$100 million were Architect, Engineer and/or Consultant Services - \$370 million or 31 percent (of which Production Engineering accounted for the largest share - \$118 million); Construction - \$341 million or 19 percent; Maintenance, Repair and Alteration of Real Property - \$322 million or 54 percent; Housekeeping Services - \$250 million or 17 percent; and Modification, Alteration and/or Rebuild of Equipment - \$198 million or 31 percent. Decreases were recorded for 3 services: Transportation - \$308 million or 47 percent; Medical Services - \$12 million or 79 percent; and Installation of Equipment - \$2 million or 6 percent. The decrease in Medical Services was due to a change in reporting procedures and not a decrease in the actual services.

In the Supplies and Equipment category (Section C, page 7) the Federal Supply Groups with changes of \$100 million or more were:

In Millions of Dollars

FS Group	FY 1975	FY 1976	Change	
			Amount	Percent
	Increases			
58	\$1,963	\$3,169	\$1,206	61

	Decreases			
19	2,687	2,164	-523	-19

As shown in the following table, actions of over \$10,000 in fiscal year 1977 totalled \$50,385 million, an increase of \$8,409 million, or 20 percent, over fiscal year 1976. The awards for RDT&E work increased by \$1,022 million, or 15 percent, for other services and construction by \$1,644 million, or 16 percent, and for supplies and equipment by \$5,744 million, or 23 percent. However, the percentage distribution among these principal types of effort changed but little.

<u>Type of Effort</u>	<u>FY 1974</u>	<u>FY 1975</u>	<u>FY 1976</u>	<u>FY 1977</u>
		<u>Millions of</u>	<u>Dollars</u>

<u>Actions of Over \$10,000</u>	<u>100</u>	<u>100</u>	<u>100</u>	<u>100</u>
RDT&E	16	15	16	16
Other Services & Construction	23	27	24	24
Supplies & Equipment	60	57	59	61

NOTE: Figures may not add to total due to rounding.

Within the RDT&E category (see Section A, page 2), awards for research increased by \$43 million or 16 percent, for exploratory development by \$80 million or 14 percent, for other development by \$883 million or 16 percent, and for management and support by \$15 million or 2 percent. Here again, the percentage distribution among these types of RDT&E work changed but little. In fiscal year 1977, research accounted for 4 percent, exploratory development 8 percent, other development 79 percent, and management and support 8 percent. In no instance did this distribution change more than 1 percentage point from fiscal year 1976.
